	CPT Code 95900 Nerve Conduction Studies (9-10)	\$310.73	\$0.00
	HCPCS Code A4556 Electrodes	\$16.90	\$0.00
TOTAL		\$622.33	\$294.70

## ***FINDINGS AND DECISION***

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

### **Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.203, effective March 1, 2008, sets the reimbursement guidelines for the disputed service.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
  - OA-The amount adjusted is due to bundling or unbundling of services.
  - W3-Additional payment made on appeal/reconsideration.
  - 193-Original payment decision is being maintained. Upon review it was determined that this claim was processed properly.

### **Issues**

1. Was CPT code 95900 billed in accordance with 28 Texas Administrative Code §134.203?
2. Is the requestor due a reimbursement for CPT codes 95886?
3. Is the benefit for HCPCS code A4556 included in the benefit of another service billed on the disputed date? Is the requestor entitled to reimbursement for HCPCS code A4556?

### **Findings**

1. 28 Texas Administrative Code §134.203(a)(5) states "Medicare payment policies" when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."

On the disputed date of service the requestor billed CPT code 95900. Effective January 1, 2013, code 95900 was deleted. The Division finds for date of service July 6, 2016, the requestor billed an incorrect code; therefore, reimbursement is not recommended.

2. On the disputed date of service, the requestor also billed CPT code "95886- Needle electromyography, each extremity, with related paraspinal areas, when performed, done with nerve conduction, amplitude and latency/velocity study; complete, five or more muscles studied, innervated by three or more nerves or four or more spinal levels (List separately in addition to code for primary procedure)."

A review of the submitted report supports EMG testing; therefore, reimbursement is recommended.

The Division refers to 28 Texas Administrative Code §134.203(c)(1)(2), which states "To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications.

(1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32.

(2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year. The following hypothetical example illustrates this annual adjustment activity if the Division had been using this MEI annual percentage adjustment: The 2006 Division conversion factor of \$50.83 (with the exception of surgery) would have been multiplied by the 2007 MEI annual percentage increase of 2.1 percent, resulting in the \$51.90 (with the exception of surgery) Division conversion factor in 2007."

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Participating Amount = Maximum Allowable Reimbursement (MAR).

The 2016 DWC conversion factor for this service is 58.62.

The Medicare Conversion Factor is 35.8043.

Review of Box 32 on the CMS-1500 the services were rendered in zip code 77042, which is located in Houston, Texas. Therefore, the Medicare participating amount will be based on the reimbursement for "Houston, Texas".

The Medicare participating amount is \$93.26

Using the above formula, the Division finds the MAR is \$152.69. The requestor billed for 2 units; therefore, \$152.69 X 2 = \$305.38 or less. The requestor is seeking a lesser amount of \$294.70, this amount is recommended.

3. According to the explanation of benefits, the respondent denied reimbursement for HCPCS code A4556 based upon unbundling services.

HCPCS Code A4556 is defined as "Electrodes (e.g., apnea monitor), per pair."

Per Medicare guidelines, Transmittal B-03-020, effective February 28, 2003 if Durable Medical Equipment Prosthetics Orthotics and Supplies (DMEPOS) HCPCS codes are incidental to the physician service, it is not separately payable. A review of the submitted documentation does not support a separate service to support billing HCPCS code A4556. As a result, additional reimbursement is not recommended.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that reimbursement is due. As a result, the amount ordered is \$294.70

### ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$294.70 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
